

October 12, 2017

DCC 19 Heat on:

**FRIDAY, OCTOBER 13<sup>th</sup>, 2017.**

Usually when heat is turned on, some heating components, (the expansion joint) may leak. **Residents are reminded to place a container/towels under their heating component and check regularly throughout the heating season for any signs of water leak.**

Your heating component is mostly found in the first bedroom, at the right or left of the Radiator. The "01" units is mostly found in the master bedroom.

**Water leak must be reported immediately to the Superintendent on duty:**

**Gino @ 905-424-1566 - Monday to Friday  
Sylvan @ 905-424-5173 - Weekends and holidays**

As done in the past, resident can pick up 1 aluminum dish (1 per unit) from the office or from the on duty superintendent.

**It is very important to remove air conditioners from windows to prevent heat loss and frosted pipes.**

**PLEASE NOTE DCC 19, WILL NOT ACCEPT RESPONSIBILITY FOR PROPERTY DAMAGE RESULTING FROM RESIDENTS NEGLIGENCE.**

Thank you.

*Sandra  
Property Administrator, DCC 19*
