

NEW ELEVATOR CARE

Finally, the restoration of the first elevator cab is completed.

There have been exclusive costs associated with the transformation of these elevators.

Stainless steel requires additional cleaning efforts, but residents can help by refraining from putting their shoes on the panels and being cautious with items that can scratch the surface.

We would like to remind all residents to be careful when using buggies to transport groceries, if possible use the moving elevator.

Continue to book the moving elevator for deliveries, moves or large items.

Please contact the Management office @ 905-839-1246 with any questions or concerns

Shelley Hutchinson,

Registered Condominium Manager
Agent for and on behalf of DCC#19
