

March 30, 2026

 **IMPORTANT PLUMBING NOTICE** 

NO WATER USE DURING SEWER PIPE REPLACEMENT

Attention All

Unit Owners & Residents of The East Side

Due to the **replacement of aging sewage piping** on the **basement floor east corridor**, the water will be temporarily shut down in this area on Tuesday, March 31, 2026 & Wednesday, April 1, 2026 from 9:00am to 5:00pm.

 DURING THIS TIME PLEASE DO NOT:

- Flush toilets
- Run taps or sinks
- Use showers or bathtubs
- Run dishwashers
- Do laundry

 ANY WATER USE DURING THIS TIME WILL DISCHARGE SEWAGE INTO OPEN PIPING.

This creates **serious health, safety, and sanitation hazards** for workers and the building.

During the **previous repair attempts there were incidents where plumbing was used**, which caused **sewage discharge, delays, and unsafe working conditions**.

We **strongly require everyone's cooperation** to prevent this from happening again.

Your compliance is **essential for this repair to be completed safely and efficiently**.

We appreciate your cooperation and understanding.

Thank you for your cooperation.

Vanessa Lewis, IHM
Property Manager
