HEATING SYSTEM SCHEDULE

NOTICE TO RESIDENTS

RE: Heating System Activation – Thursday, October 15th, 2026

Dear Residents,

Please be advised that the **boilers for the building's heating system are scheduled to be activated on Thursday, October 15th, 2026.**

As heating resumes, it is common for some components—particularly the **expansion joints**—to leak. **Residents are reminded to place a container or towels under their heating component** and check the area regularly throughout the heating season for signs of water leakage.

Location of Heating Components:

- In most units, the heating component is in the **first bedroom**, to the **left or right of the radiator**.
- In **“01” units**, it is typically found in the **master bedroom**.

If You Notice a Leak:

Immediately contact the Superintendent:

Andi – 905-409-1774

Important Reminder:

To prevent **heat loss** and **frozen pipes**, all **window air conditioners must be removed** as soon as possible.

Please Note:

DCC No. 19 will not accept responsibility for any property damage resulting from resident negligence.

Thank you for your attention to this matter.
